

Products Range : Shafts**Application :**

Automotive Transmission Components, Engine Parts, Electric Motors, Aerospace Equipments, Earthmoving Machines, Marine components etc.

Material :

Carbon Steel, Alloy Steels(16MnCr5 / SAE 8620/SCM 420/ EN 9/EN 353/ C 45)

Cast Iron.

Specifications :

Length : upto 600 mm length

Tolerance

Concentricity : 20μ & above

Face Runout : 20μ & above

Weight : upto 15 Kgs.

Surface Finish :

As per specification
